

AUTOMNE 2018

OIGNONS À FLEURS

A close-up photograph of a single, vibrant red tulip flower in full bloom. The petals are layered and show a gradient from bright red to a slightly darker shade. The flower is positioned on the right side of the frame, with its green stem extending downwards. Behind the flower, a dense, fine spray of red particles, resembling dust or pollen, trails off to the left, creating a sense of movement. The background is a soft, out-of-focus green.
